

Life Cycle Engineering (LCE) is composed of an interdisciplinary group that has been dedicated to providing top level consultancy since the 90s. LCE is specialized in the field of sustainability with particular reference to the analysis and communication of environmental aspects, safety at work, management systems and changes in environmental legislation.

The goal of **LCE** is to achieve excellence able to:

-  **BE A STRATEGIC REFERENCE POINT FOR CUSTOMERS**
-  **PROVIDE "MADE TO MEASURE" SERVICES TO MEET SPECIFIC NEEDS**
-  **INSPIRE INNOVATION AND DELIVER DYNAMIC SOLUTIONS**
-  **DEVELOP PEOPLE AND INCREASE FINANCIAL RESOURCES**

To reach these goals, the management system of LCE will endeavor to:

-  **SPREAD THE PRINCIPLE OF CONTINUOUS IMPROVEMENT IN THE CORPORATE CULTURE AND IN THE RELATIONSHIP WITH STAKEHOLDERS**
-  **INVEST IN HUMAN RESOURCES THROUGH TRAINING AND PROFESSIONAL DEVELOPMENT IN ORDER TO OFFER INNOVATIVE SERVICES**
-  **ANALYZE AND PERIODICALLY REVIEW ITS PERFORMANCE**

The direction is committed to providing adequate resources and support to achieve the goals and periodically monitor the system implemented through monitoring indicators.
