

NEED

Tenaris is a global manufacturer and supplier of steel pipes and related services. Together with its Tenaris University, the internal learning platform, is aim at training its employees on different topics, also environmental ones, and remain competitive on the market.

EPDs are very important in Tenaris environmental strategy and needs its sale forces to increase their knowledge on this topic.

RESPONSE

LCE supported Tenaris University developing a classroom course that, on top on preparing on EPDs and LCAs, also gives the fundamentals of environmental communication. The course is based on lectures and practical exercises.

OUTCOMES

The course allows Tenaris University to offer a learning package focused on sustainability, environmental communication and EPDs to its employees keeping them competitive on the market

GEOGRAPHICAL COVERAGE

Tenaris University is Tenaris's learning platform and the course developed will be delivered worldwide.
